

**K-Electric seeks clarity on ZRISP**

KARACHI: K-Electric on Thursday said it has sought clarity from the Power Division via letter dated March 11, 2019 on the implementation of Zero-Rated Industrial Support Package.

It said that it was in continuous engagement with the Ministry of Energy, as a law-abiding, responsible corporate entity which ensures compliance with all respective guidelines prescribed by relevant authorities.

The power utility follows due process in coordination with concerned authorities, ensuring prior notification and seeking permission wherever applicable on timeline and implementation of directives.

“We are currently waiting for the directives from the Power Division in response to our letter to make any adjustments in the consumer bills accordingly,” a statement issued by K-Electric said.
