

Driving while phoning

 dawn.com/news/1533992/driving-while-phonying

February 12, 2020

ACCORDING to traffic regulations, one shouldn't use mobile phone while driving. I see a lot of drivers not only talking on the phone, but also texting and reading text messages while driving.

Also, one gets to witness motorcyclists using their mobile phones even when accompanied by their loved ones. What could be more important than one's own life and the lives of the loved ones?

I urge the authorities to take stringent steps to discourage use of mobile phones while driving.
