HAFEEZ SHAIKH**
Advisor to PM
on Finance

**ABDUL RAZZAK
DAWOOD**
Advisor to PM on
Commerce & Textile

APPEAL

In order for Pakistan's economy to survive the Post Corona challenges, it is essential that the GOP takes immediate measures to reduce the gas price for the industries to bring it in line with the present international prices of energy.

During this year, Government has **Reduced Energy Prices** of:

Petrol by 36.8% **RLNG by 37%** **LPG by 27.5%**

No reduction in natural gas prices has been made for the industry to make it competitive in comparison to other countries.

Our Gas Tariff is based on Brent oil prices which have fallen from USD 65 per barrel to USD 40 per barrel.

**IN ALL FAIRNESS AND IN LINE WITH POLICY
OF REDUCING ENERGY PRICES, GOVERNMENT
NEEDS TO TAKE ACTION ON IMMEDIATE
BASIS AND ANNOUNCE A REDUCTION IN
GAS PRICE BY AT LEAST 35%**
