

# APPEAL

to Our Honourable  
Prime Minister  
**IMRAN KHAN**

**& Mr. Hammad Azhar**

Federal Minister for  
Industries & Production

## Save the investments in the Export Processing Zones from illegal rules and regulations enforced by Chairman EPZA

1. Exports of US \$700 million per annum have reduced to US \$600 Million due to unfavorable policies while they have the potential to double within a year.
2. EPZA is required to facilitate investors and honour its commitment of being a one window operation.
3. Illegal BAN on issuance of new licenses & forced closure notices to many factories rendering thousands of jobs in jeopardy.
4. New rules being implemented are disadvantageous to the investors and contradict SRO 1058(1)/81 section 24a - Are being implemented without EPZA board approval and without consent of investors.
5. Complaints lodged by Investors against the Chairman EPZA on the **PM's Pakistan Citizen's Portal** have been directed to the Chairman EPZA to resolve, which seems to be an exercise in futility.

---

**Immediate intervention required to save investors Billions  
of Dollars and to attract foreign investment**

---

**Export Processing Zone's Investors**
