

Chinese products on display, Pakistan Industrial Expo from 13th

LAHORE: Pakistan Industrial Expo 2020 will be held in the provincial metropolis from November 13 to 15, 2020, wherein Chinese products will be showcased.

The three-day exhibition which can help increase production capacity of the Pakistan industrial sector will use both "online and offline" method.

As many as 100 Chinese companies are likely to participate in the event. Products will be physically presented at the booths set up on this occasion while B2B meetings will also be arranged online through especially installed gadgets at every booth.

The main sectors which would take part in the exhibition included CNC machinery, construction machinery, new energy, building material, agricultural machinery, plastic machinery, hardware, chemical, and auto parts.

China-SCO (The Shanghai Cooperation Organization) Demonstration Zone is located in Qingdao city of the Shandong province which is known internationally for manufacturing of machinery and equipment and agriculture. Over 50 companies are taking part in the exhibition from this province.

According to the organizer - Everest International Expo, the Pakistan Industrial Expo was initially organized in 2017 with a commitment to strengthen the indigenous industry. This event is expected to attract more investment from China. The SOPs would strictly be observed during the event as arrangements have been made to provide face mask to every visitor, sanitizer for every both while temperature would be checked at the entry point.
