KE extends due date of bills

KARACHI: In order to facilitate customers in the aftermath of the rain and flooding disruption, K-Electric has extended the deadline for payments of electricity bills, a statement released by the utility on Tuesday says.

This extension is applicable on bills with due dates falling between Aug 25 to Sept 3, both days included. These bills can now be paid latest by the new date Sept 4.

All banks have been informed to accept bill payments without any late payment surcharge. In case of any issue at time of utility bill payment consumers can register their complaints by calling 118, says the statement.
