# APPEAL

## IMPLEMENTATION OF COMMITMENT TO PROVIDE GAS AT 6.5\$ TO THE EXPORTING INDUSTRY Honorable Prime Minister

It was your commitment to give regionally competitive one energy price in the country at 6.5\$ per MMBTU in the manifesto.

Decision of ECC of 16th September 2018 was to provide Gas/RLNG at 6.5\$ per MMBTU to Zero Rated exporting industry including captive power w.e.f 27th September 2018.

Contrary to the ECC decision RLNG/Gas bills have been now issued for the month of October at 12.5\$ per MMBTU.

Industry does not have the liquidity to pay these bills since it has consumed large volumes of RLNG/Gas to enhance production for export.

**Non implementation of ECC Decision is negating Government's policy of export enhancement to bridge Balance of Payment deficit**

**Immediate corrective action is requested.**
