

**SNGPL introduces gas saving gadgets**

LAHORE: Sui Northern Gas Pipelines Limited (SNGPL) has introduced special gas saving gadgets to cope with the winter season. Usually during the winters gas demand supply gap widens due to excessive usage of geyser and gas heater. Keeping in view the situation, the company has introduced gas saving gadgets which will not only reduce the natural gas consumption but will also cut the gas bill to half.

These gadgets include conical baffle, geyser timer device and solar water heater. Geyser Timer Device is installed in the conventional gas geyser and operated through smart phone. This device automatically turns the geyser on or off on the pre-determined timings set by the consumer. Conical baffle is also installed in the geyser and stops wastage of natural gas.

These devices together can easily reduce gas bill to half. Also the company has introduced solar water heater which not only keeps water warm for longer period but also help consumer get rid of the gas bill. For more information or free installation of these devices, customers can call help line 1199 or 042-99204581 or type info and send it to 0332-4317776.—PR
