

Debt crisis

Page No.09 Col NO.03

TO help ease the debt crisis in Pakistan, I would like to make a few suggestions to the government. Families or individuals of Pakistani origin who live in foreign lands should send around \$1,000 or a greater amount to their families back home, which could also be sent to their own account in Pakistan.

The transaction ought to be through official commercial banks and then processed through the State Bank of Pakistan. In addition, foreign governments ready to give loans on low interest rates to the new government in Pakistan should consider buying goods of the same amount by paying in advance. This would have a considerable socio-economic impact.
