

Fuel price

Page NO.09 Col NO.02

THIS refers to the report ‘Caretakers to decide fuel price hike’ (June 1). Finance Minister Miftah Ismail requested the federal cabinet to take a decision to keep the prices of petroleum product unchanged.

However, he has made this request to get credit for the PML-N government in its last days. Doing a right thing must be based on right intention.

Politicians must understand that they are custodians of people and they should do all deeds on the basis of giving benefit to the people, but not to their political parties.

If on June 8 the caretakers raise the prices of petroleum products, it means the buck just has been passed.
