## 'Charter of economy'

The PTI government's approach to country's economy says it all. According to media reports, Federal Finance Minister Asad Umar has welcomed "charter of economy" proposal floated by Leader of Opposition in the National Assembly Shahbaz Sharif during his debate on the Finance Supplementary (Amendment) Bill, 2018.

According to the minister, finance committees of National Assembly and Senate are the best platforms available to build a consensus for a "charter of economy." That the country needs a 'charter of democracy' is a fact. A consensus document in this regard will help protect and preserve mid-and long-term planning.

A 'charter of economy' ought to have been signed long ago; it is never too late to correct our mistakes. And if we do not, we risk repeating them.
