## QUALITY ASSURANCE DEPARTMENT

The quality of our products and our QA Management System is the cornerstone of our quality policy. More than 20 experts work in this most important department.

- At every step of the production process, checking procedures reflect that quality is our number one priority. We work at all times to achieve rigorous standards far beyond our customer's requirements. This means heavy investment in both human resources and equipment.
- Our Process consists of Inspection & Testing of incoming materials.
- Independent inline inspection at every stage of the process e.g. weaving, bleaching/Dyeing, Finishing, Packing.
- Final Inspection before delivery.
- QAD works in parallel with the production departments.
- Inline inspection is carried out at every stage of processing with well trained qualified staff.
- QAD is critical as it plays a vital role in customer retention, market value of the company, and quality certification.
